

Power Lift for X300 & X500

44/48" Plow Blades and Snow Blowers

Power Lift Kit for X300 / X500
44"/48" Plows and Snow Blowers

Product Description

The New Power Lift Kit is designed to make your winter work load more convenient and enjoyable. The Power Lift Kit is compatible with your Select Series 44/48" blade and all Select Series snow blowers. The kit is easy to install and utilizes an electric actuator to effortlessly raise and lower your front attachment. Increase the usability of your blades with controlled down force. Controlled down force provides down pressure and the ability to fix the blade height during work. Convenience is at your fingertips with the dash mounted controls. The lift kit raises the attachment to a height of 4-6" (depending on tractor model) which aids in curb management and trailer loading.

Additional Features

- Heavy duty electric actuator designed for high hour usage for effortless lift and lower
- Powder coated steel components
- Includes convenient dash mounted control switch and all electrical components
- Provides 4-6" lift height and controllable down force
- Installation with hand tools (15 min.)
- 2-Year Residential Warranty
